

INFS6600 Course-Category Mapping v2

Business Information Systems Capstone | Semester 2, 2026 [Normal evening] - Camperdown/Darlington, Sydney | Taxonomy
2026-09-01-tutor-feedback-v2

Positive categories: Work-Integrated and Applied Learning; Case-Based Learning; Project- and Problem-Based Learning. Categories are not mutually exclusive; percentages and counts are not expected to sum to 100%. This report covers INFS6600 only.

1. Category summary

Category	Status	Positive items	Review items	Classified score	Review score	Positive sections
Work-Integrated and Applied Learning	positive	11	1	48.5	2.0	OV=1; LO=3; AS=4; WK=3
Simulation	no_match	0	0	0.0	0.0	None
Case-Based Learning	positive	1	2	3.5	4.0	LO=1
Project- and Problem-Based Learning	positive	4	2	14.5	4.0	LO=1; WK=3
Community Learning	no_match	0	0	0.0	0.0	None
Entrepreneurial Learning	review_only	0	2	0.0	4.0	None
Technology-Mediated Learning	no_match	0	0	0.0	0.0	None
Hybrid Learning	no_match	0	0	0.0	0.0	None

2. Positive evidence

Category	Item	Section	Evidence label	Score	Matched rules
Work-Integrated and Applied Learning	OV01	OV	Overview paragraph 1	10.0	authentic practice; theory-practice integration; practical teamwork; career readiness
Work-Integrated and Applied Learning	LO01	LO	Learning outcome 1	4.0	actual organisation or professional context

Category	Item	Section	Evidence label	Score	Matched rules
Case-Based Learning	LO02	LO	Learning outcome 2	3.5	explicit scenario method
Work-Integrated and Applied Learning	LO03	LO	Learning outcome 3	4.0	actual organisation or professional context
Project- and Problem-Based Learning	LO03	LO	Learning outcome 3	4.0	authentic problem or challenge
Work-Integrated and Applied Learning	LO04	LO	Learning outcome 4	4.0	actual organisation or professional context
Work-Integrated and Applied Learning	AS06	AS	Business Models Submission of partner's business, operating models, and IS architecture	4.0	industry or business partner
Work-Integrated and Applied Learning	AS08	AS	Pitch to Partner Slides submission before class Delivered during class time	4.0	industry or business partner
Work-Integrated and Applied Learning	AS10	AS	Boardroom Presentation Slides submission before class Live presentation	3.5	professional presentation
Work-Integrated and Applied Learning	AS11	AS	Boardroom Presentation Q&A Q&A post boardroom presentation	3.5	professional presentation
Project- and Problem-Based Learning	WK01	WK	Week 01: Unit Introduction & Project Immersion	3.5	project immersion
Work-Integrated and Applied Learning	WK02	WK	Week 02: Partner Briefing & Group Collaboration	4.0	industry or business partner
Project- and Problem-Based Learning	WK03	WK	Week 03: Problem & Opportunity Scoping	3.5	problem and opportunity scoping
Work-Integrated and Applied Learning	WK05	WK	Week 05: Pitch to Partner	4.0	industry or business partner
Project- and Problem-Based Learning	WK09	WK	Week 09: Prototype Validation	3.5	design and prototype method
Work-Integrated and Applied Learning	WK12	WK	Week 12: Boardroom Presentation	3.5	professional presentation

3. Manual-review queue

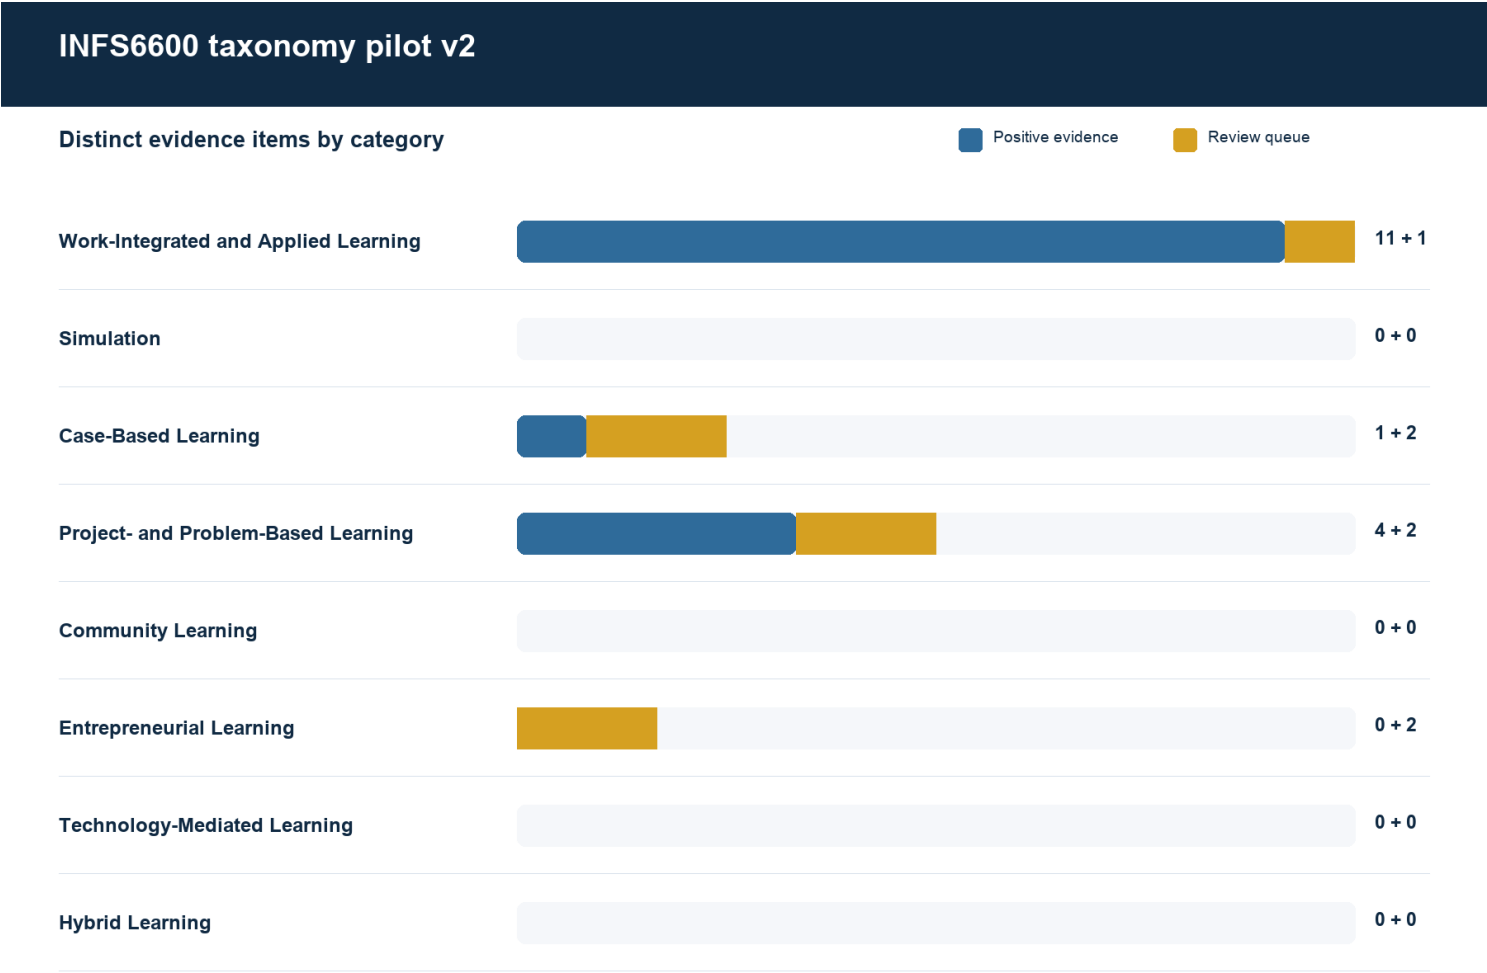

Category	Item	Evidence label	Score	Why review
Case-Based Learning	AS06	Business Models Submission of partner's business, operating models, and IS architecture	2.0	administrative case-studies label
Case-Based Learning	AS12	Group Report Written report	2.0	administrative case-studies label
Work-Integrated and Applied Learning	WK01	Week 01: Unit Introduction & Project Immersion	2.0	project immersion

Category	Item	Evidence label	Score	Why review
Project- and Problem-Based Learning	WK04	Week 04: Project Planning	2.0	generic project planning
Entrepreneurial Learning	WK07	Week 07: Ideation	2.0	generic ideation or prototyping
Entrepreneurial Learning	WK08	Week 08: Prototyping	2.0	generic ideation or prototyping
Project- and Problem-Based Learning	WK10	Week 10: Implementation Planning	2.0	generic project planning

4. Interpretation

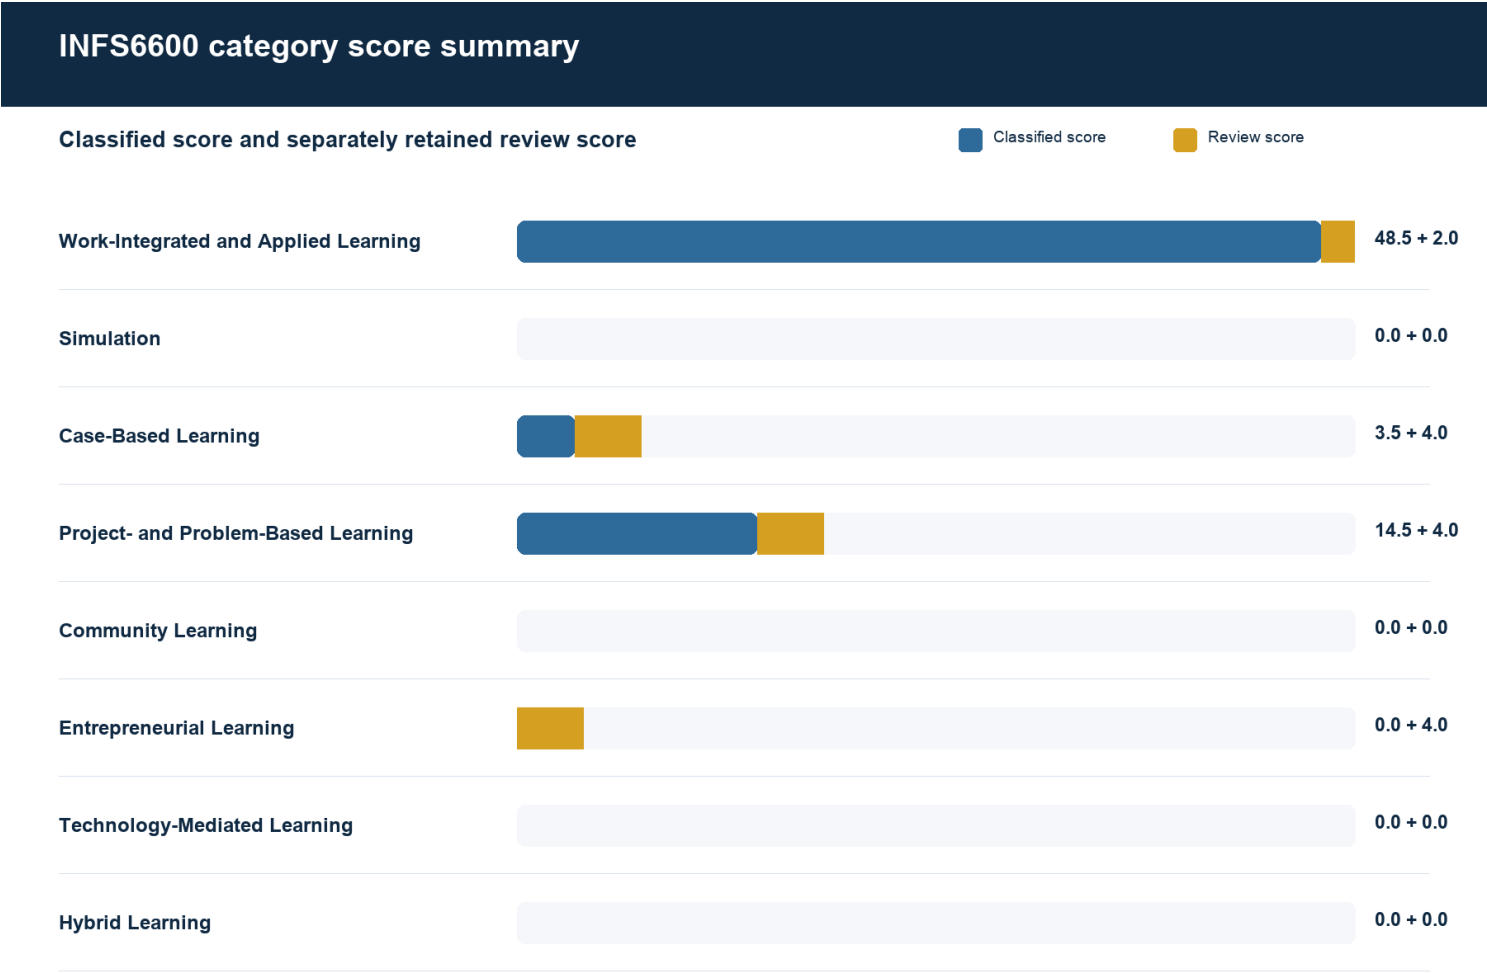

- Work-Integrated and Applied Learning has 11 positive items across all four source sections.
- Case-Based Learning is positive from LO02; the two assessment-type labels remain review-only.
- Project- and Problem-Based Learning is independently positive from the actual problem, project immersion, problem/opportunity scoping, and prototype validation.
- Simulation has no positive evidence and is not inherited from Case-Based Learning.
- Entrepreneurial Learning has two review signals, but no explicit startup, venture, or entrepreneurship evidence.

5. Evidence-count distribution

Categories are not mutually exclusive. Review signals are reported separately from positive evidence.

7. Source-section distribution

Where positive evidence appears

INFS6600 Semester 2, 2026 [Normal evening] - Camperdown/Darlington, Sydney - distinct item counts

	Overview	Learning outcomes	Assessments	Weekly schedule
Work-Integrated and Applied Learning	1	3	4	3
Simulation	0	0	0	0
Case-Based Learning	0	1	0	0
Project- and Problem-Based Learning	0	1	0	3
Community Learning	0	0	0	0
Entrepreneurial Learning	0	0	0	0
Technology-Mediated Learning	0	0	0	0
Hybrid Learning	0	0	0	0

Each cell counts distinct positive evidence items. Zero means no positive item was found in that section.

Categories are not mutually exclusive; the same outline item may appear once in more than one category.
